

The financial compass  
that keeps you on track

One single app for all your  
daily administration tasks.

Pleasantly simple.

# We love SMEs

Everything you need,  
all in one place

TOCO helps you navigate your business. Digitalize your paper flows, connect with your accountant and service providers, share, create and pay invoices...all while keeping a 360° view on your company figures. It's your daily compass, not just another application.

## **Know where you stand, anytime**

Don't wait for your quarterly or yearly figures, TOCO provides you an up-to-the-minute daily overview of your key figures - displayed in handy charts.

So you can forecast better, make informed decisions and excite your company.

## **Automate and accelerate**

We help you be more efficient, giving you intuitive features that speed up repetitive administration tasks. Always have an overview of your key tasks, organize your day and keep track of your deadlines.

Works on any device, for life on-the-go.

## **Connect, engage...in a few clicks**

Start your day with a peek at your timeline. Push information to your accountant, inform your social secretary, contact your banker for that loan...all from your social media-style timeline.

## **Streamline your financial life-cycle**

Craft professional invoices, send reminders, and add post-it-style context. Schedule payments, set up automated reminders, list outstanding invoices. TOCO saves you and your accountant a considerable amount of time.

# Accountants love TOCO

## A forward-thinking solution

We redesigned the boundaries of financial administration. One single portal that lets you manage all your customers.

### **Forget peak moments**

With fiscal closes on the horizon, invoices and excel sheets pop up on your screen. With TOCO, the processes traditionally left for the period end are spread more evenly.

### **A 100% digital launchpad**

There's many reasons why we don't like paper, and we're pretty sure that you have a few too. With TOCO you digitalize every document, from expense notes over bank statements to invoices and VAT declarations.

Scan, recognize, search, find, and file in a few seconds.

### **More time for advice**

Shift your activities from dull, repetitive tasks to advising and developing business partnerships. TOCO lets you be more than just "a bookkeeper" to your customers.

### **Easy integration with accounting packages**

TOCO is not a bookkeeping package. Just continue to use your favorite solution for that, we'll take care of the integration.

No stress.

### **Together Connected**

This is our brand promise. It summarizes perfectly why we exist. Send messages more easily, find those replies in your portal, and collect your documents, including post-it style context. Transparent and easy-to-understand communication. It's all there.

**READY  
FOR  
MORE  
FREE  
TIME?**

The background is a solid blue color. It features several large, semi-transparent circles of varying shades of blue, some overlapping. Scattered throughout the background are numerous small, light blue triangles, some pointing up and some pointing down.
